## **Message From Reclaiming Earth Committee – Wednesday Earth Wisdom:**

**UNANIMA International** is a Non-Governmental Organization to which we belong, as do 19 other women's congregations around the globe.

Several members of UNANIMA are present at the Paris climate talks. One sister is Michele Morek, OSU, who is the Executive Director. Her blog, written from Paris, can be found at [here](#).

Also, Sister Michelle was interviewed by NCR and the article written by Brian Roewe can be found [here](#).

Where UNANIMA is, so are we as members!
