

Wednesday Earth Wisdom

January 13, 2016

Message From Reclaiming Earth Committee Wednesday Earth Wisdom:

Sustainable Development Goal #3 strives to ensure healthy lives and promote wellbeing for all at all ages.

Laudato Si # 20 states: “Exposure to atmospheric pollutants produces a broad spectrum of health hazards, especially for the poor, and causes millions of premature deaths. People take sick, for example, from breathing high levels of smoke from fuels used in cooking or heating. There is also pollution that affects everyone, caused by transport, industrial fumes, substances which contribute to the acidification of soil and water, fertilizers, insecticides, fungicides, herbicides and agro-toxins in general”.

From Ela Gandhi, granddaughter of the Mahatma comes: “We know from our scriptures and very early learning that there is a strong link between everything — all matter and all thinking. We see the connection being made between body, mind and soul.”

“Be the change you want to see.”
Attributed to the Mahatma Gandhi.
