Message From Reclaiming Earth Committee Wednesday Earth Wisdom:

Sustainable Development Goal #4 is to “Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all.” Laudato Si # 94 says in part: “apart from ownership of property, rural people must have access to means of technical education, credit, insurance and markets.”

In #111 we read: “There needs to be a distinctive way of looking at things, a way of thinking, policies, an educational program, a lifestyle and a spirituality which together generate resistance to the assault of the technocratic paradigm”.

Since the foundation of the Congregation, there has been an emphasis on quality education especially where the needs are greatest. There are many ways of ensuring and promoting quality education. As Providence people, what meaning does all of this have for you? Take it to prayer and follow up with the action that is right for you.
