

## Wednesday Earth Wisdom

Wednesday, June 22

### **Message From Reclaiming Earth Committee – Wednesday Earth Wisdom:**

The first anniversary of the encyclical *Laudato Si'* has come and gone. People, parishes, organizations around the globe celebrated this event with fervor and delight.

Some began action on behalf of the marginalized, which includes creation, before the advent of *Laudato Si'* which helped deepen their awareness in integral ecology.

Some are beginning new outreach or expanded their actions at the instigation of the encyclical.

A common question for all: how are you/we living commitment to care for the common good as reflected in the encyclical?
