

Wednesday Earth Wisdom

Wednesday, September 7

Message From Reclaiming Earth Committee – Wednesday Earth Wisdom:

In his message for the World Day of Prayer for the Care of Creation, Pope Francis stated that members of the faith community should consider adding “care for our common home” to the traditional set of works first described by Jesus.

Francis also calls on individuals in various countries of the world to push their governments to make good on recent international agreements aimed at halting the warming of the atmosphere and encouraging sustainable development.” He asks Christians to add new works of mercy in push for climate change action. (NCRonline.org 9-1-2016)

In *Laudato Si*, Pope Francis writes, “The urgent challenge to protect our common home includes a concern to bring the whole human family together to seek a sustainable and integral development, for we know that things can change ... Humanity still has the ability to work together in building our common home.” (Par. 13)

Each of us in some way has the ability to perform an action for the whole human family. Prayer has a place alongside action. What action are you doing?
