

Wednesday Earth Wisdom

Wednesday, November 9

Message From Reclaiming Earth Committee – Wednesday Earth Wisdom:

As we reflect on *Laudato Si'*, our awareness is increased regarding the connection between environmental degradation and poverty.

We are so interconnected that it is entirely possible that we do not recognize our own complicity on what is happening to those on the margins as we use our “white privilege.”

There are many ways that racism can and will raise its ugly head. Environmental degradation is only one way.

Please read the latest LCWR [Resolution to Action](#) that is a portion of Wednesday Earth Wisdom this week. After reading it, please reflect on what stirs in you, what is causing you unease? Are you being called to action of some type?
