

Wednesday Earth Wisdom

Wednesday, February 1

Message From Reclaiming Earth Committee – Wednesday Earth Wisdom:

We hear from our beloved Francis: "New forms of cooperation and community organization can be encouraged in order to defend the interests of small producers and preserve local ecosystems from destruction. Truly, much can be done." (Par. 180)

"Here, continuity is essential, because policies related to climate change and environmental protection cannot be altered with every change in government. Results take time and demand immediate outlays which may not produce tangible effects within any one governments turn." (Par. 181)

Written almost two years ago, doesn't this sound prophetic for our time in this country?

What has been/is your response to recent events in the lives of us all?
