Message From Reclaiming Earth Committee

This time of waiting is nearly over and as Christmas Day approaches, many of us have thought of gifts for family and friends.

As we continue to reflect on the interconnectedness of all creation and the role we have as a prime mover of integral ecology, what gift have you thought of for our beautiful planet, Earth? It goes without saying that Jesus, for us, is the ultimate gift to, with and of creation including humanity, but how do you express all that you know and believe?

Think about it!

Pray about it!

Merry Christmas to all and may you know yourself to be blessed!
