Message From Reclaiming Earth Committee

The cusp of a brand new year is upon us with all of its potential for new perspectives bringing life filled with possibility.

For more than a year, we have been reflecting (I hope) on the imaginable opportunities we see when we pray and reflect on integral ecology. Many people take the occasion of a new year to imagine the prospects of the future and then these prospects become a part of their New Year resolutions.

Are you thinking of making a New Year resolution? Is integral ecology a portion of the resolution, if not all of it? If not, why not?

Have a happy and blessed New Year!!
